Independent Auditor's Report to the Members of the Clay Brick and Paver Association of N.S.W.

Opinion

I have audited the financial report of the Clay Brick and Paver Association of N.S.W. (the Reporting Unit), which comprises the statement of financial position as at 30 June 2021, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended 30 June 2021, notes to the financial statements, including a summary of significant accounting policies; the Committee of Management Statement, the subsection 255(2A) report and the Officer Declaration Statement.

In my opinion, the accompanying financial report presents fairly, in all material aspects, the financial position of the Clay Brick and Paver Association of N.S.W. as at 30 June 2021 and its financial performance and its cash flows for the year ended on that date in accordance with:

- a) Australian Accounting Standards; and
- b) any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the *Fair Work (Registered Organisations) Act 2009* (the RO Act).

I declare that management's use of the going concern basis in the preparation of the financial statements of the Reporting Unit is appropriate.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Reporting Unit in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The Committee of Management is responsible for the other information. The other information obtained at the date of this auditor's report is in the Operating Report accompanying the financial report.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of Committee of Management for the Financial Report

The Committee of Management of the Reporting Unit is responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the RO Act, and for such internal control as the Committee of Management determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Committee of Management is responsible for assessing the Reporting Unit's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Committee of Management either intend to liquidate the Reporting Unit or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

My objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Committee of Management.
- Conclude on the appropriateness of the Committee of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Reporting Unit's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Reporting Unit to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Reporting Unit to express an opinion on the financial report. I am responsible for the direction, supervision and performance of the Reporting Unit audit. I remain solely responsible for my audit opinion.

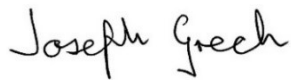

I communicate with the Committee of Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I declare that I am an approved auditor, a member of Chartered Accountants Australia and New Zealand and hold a current Public Practice Certificate.

I declare that I am an auditor registered under the RO Act

Recovery of wages

The reporting unit does not engage in the recovery of wages activity.

Committee of Management Statement for the year ended 30 June 2021

On 7th October 2021 the committee of management of the *Clay Brick and Paver Association of N.S.W.* passed the following resolution in relation to the general-purpose financial report (GPFR) for the year ended 30 June 2021:

The Committee of Management declares that in its opinion:

- (a) the financial statements and notes comply with the Australian Accounting Standards;
- (b) the financial statements and notes comply with any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the *Fair Work (Registered Organisations) Act 2009* (the RO Act);
- (c) the financial statements and notes give a true and fair view of the financial performance, financial position and cash flows of the reporting unit for the financial year to which they relate;
- (d) there are reasonable grounds to believe that the reporting unit will be able to pay its debts as and when they become due and payable; and
- (e) during the financial year to which the GPFR relates and since the end of that year:
 - (i) meetings of the committee of management were held in accordance with the rules of the organisation; and
 - (ii) the financial affairs of the reporting unit have been managed in accordance with the rules of the organisation; and
 - (iii) the financial records of the reporting unit have been kept and maintained in accordance with the RO Act; and
 - (iv) The organisation does not consist of more than one reporting unit; and
 - (v) where information has been sought in any request by a member of the reporting unit or Commissioner duly made under section 272 of the RO Act has been provided to the member or Commissioner; and
 - (vi) where any order for inspection of financial records has been made by the Fair Work Commission under Section 273 of the RO Act, there has been compliance.

This declaration is made in accordance with a resolution of the Committee of Management.

Notes of the Financial Statements

for the year ended 30 June 2021

Note 1 Summary of significant accounting policies

1.1 Basis of preparation of the financial statements

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period, and the *Fair Work (Registered Organisation) Act 2009*. For the purpose of preparing the general-purpose financial statements, the Clay Brick and Paver Association of N.S.W. is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars.

1.2 Comparative amounts

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

1.3 Significant accounting judgements and estimates

The committee of management evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Association.

It has not been necessary for the Committee of Management to make any key estimates or judgements in the report.

1.4 New Australian Accounting Standards

Adoption of New Australian Accounting Standard requirements

The accounting policies adopted are consistent with those of the previous financial year except for the following standards and amendments, which have been adopted for the first time this financial year:

- *AASB 2018-7 Amendments to Australian Accounting Standards – Definition of Material*

No accounting standard has been adopted earlier than the application date stated in the standard.

Notes of the Financial Statements

for the year ended 30 June 2021

Impact on adoption of AASB 2018-7 Amendments to Australian Accounting Standards - Definition of Material

The amendments provide a new definition of material that states, “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.” The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users.

These amendments had no impact on the financial statements of the Clay Brick and Paver Association N.S.W., nor is there expected to be any future impact to the Clay Brick and Paver Association N.S.W.

1.5 Revenue

The Clay Brick and Paver Association of N.S.W. enters into various arrangements where it receives consideration from another party. These arrangements include consideration in the form of membership subscriptions.

The timing of recognition of these amounts as either revenue or income depends on the rights and obligations in those arrangements.

Revenue from contracts with customers

Where the Clay Brick and Paver Association of N.S.W. has a contract with a customer, the Clay Brick and Paver Association of N.S.W. recognises revenue when or as it transfers control of goods or services to the customer. The Clay Brick and Paver Association of N.S.W. accounts for an arrangement as a contract with a customer if the following criteria are met:

- the arrangement is enforceable; and
- the arrangement contains promises (that are also known as performance obligations) to transfer goods or services to the customer (or to other parties on behalf of the customer) that are sufficiently specific so that it can be determined when the performance obligation has been satisfied.

Membership subscriptions

For membership subscription arrangements that meet the criteria to be contracts with customers, revenue is recognised when the promised goods or services transfer to the customer as a member of the Clay Brick and Paver Association of N.S.W.

If there is only one distinct membership service promised in the arrangement, the Clay Brick and Paver Association of N.S.W. recognises revenue as the membership service is provided, which is typically based on the passage of time over the subscription period to reflect the Clay Brick and Paver Association of N.S.W.’s promise to stand ready to provide assistance and support to the member as required.

Notes of the Financial Statements

for the year ended 30 June 2021

If there is more than one distinct good or service promised in the membership subscription, the Clay Brick and Paver Association of N.S.W. allocates the transaction price to each performance obligation based on the relative standalone selling prices of each promised good or service. In performing this allocation, standalone selling prices are estimated if there is no observable evidence of the price that the Clay Brick and Paver Association of N.S.W. charges for that good or service in a standalone sale. When a performance obligation is satisfied, which is either when the customer obtains control of the good (for example, books or clothing) or as the service transfers to the customer (for example, member services or training course), the Clay Brick and Paver Association of N.S.W. recognises revenue at the amount of the transaction price that was allocated to that performance obligation.

For member subscriptions paid annually in advance, the Clay Brick and Paver Association of N.S.W. has elected to apply the practical expedient to not adjust the transaction price for the effects of a significant financing component because the period from when the customer pays and the good or services will transfer to the customer will be one year or less.

When a member subsequently purchases additional goods or services from the Clay Brick and Paver Association of N.S.W. at their standalone selling price, the Clay Brick and Paver Association of N.S.W. accounts for those sales as a separate contract with a customer.

Interest income

Interest revenue is recognised on an accrual basis using the effective interest method.

1.6 Cash

Cash is recognised at its nominal amount. Cash and cash equivalents includes cash on hand, deposits held at call with bank, other short-term highly liquid investments with original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

1.7 Financial instruments

Financial assets and financial liabilities are recognised when the Clay Brick and Paver Association of N.S.W. becomes a party to the contractual provisions of the instrument.

1.8 Financial assets

Contract assets and receivables

A contract asset is recognised when the Clay Brick and Paver Association of N.S.W.'s right to consideration in exchange goods or services that has transferred to the customer when that right is conditioned on the Clay Brick and Paver Association of N.S.W.'s future performance or some other condition.

A receivable is recognised if an amount of consideration that is unconditional is due from the customer (i.e., only the passage of time is required before payment of the consideration is due).

Contract assets and receivables are subject to impairment assessment. Refer to accounting policies on impairment of financial assets below.

Notes of the Financial Statements

for the year ended 30 June 2021

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through other comprehensive income (**OCI**), or fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Clay Brick and Paver Association of N.S.W.'s business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the Clay Brick and Paver Association of N.S.W. initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest' (**SPPI**) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Clay Brick and Paver Association of N.S.W business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Clay Brick and Paver Association of N.S.W. commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in five categories:

- (Other) financial assets at amortised cost
- (Other) financial assets at fair value through other comprehensive income
- Investments in equity instruments designated at fair value through other comprehensive income
- (Other) financial assets at fair value through profit or loss
- (Other) financial assets designated at fair value through profit or loss

Financial assets at amortised cost

The Clay Brick and Paver Association of N.S.W measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (**EIR**) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. The Clay Brick and Paver Association of N.S.W.'s financial assets at amortised cost includes trade receivables, cash and cash equivalents.

Notes of the Financial Statements

for the year ended 30 June 2021

Derecognition

A financial asset is derecognised when:

- The rights to receive cash flows from the asset have expired or
- The Clay Brick and Paver Association of N.S.W. has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - a) the Clay Brick and Paver Association of N.S.W. has transferred substantially all the risks and rewards of the asset, or
 - b) the Clay Brick and Paver Association of N.S.W. has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Clay Brick and Paver Association of N.S.W. has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Clay Brick and Paver Association N.S.W. continues to recognise the transferred asset to the extent of its continuing involvement together with associated liability.

Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment

(i) Trade receivables

For trade receivables that do not have a significant financing component, the Clay Brick and Paver Association of N.S.W. applies a simplified approach in calculating expected credit losses (**ECLs**) which requires lifetime expected credit losses to be recognised from initial recognition of the receivables.

Therefore, the Clay Brick and Paver Association N.S.W. does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Clay Brick and Paver Association of N.S.W. has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Notes of the Financial Statements

for the year ended 30 June 2021

(ii) Debt instruments other than trade receivables

For all debt instruments other than trade receivables and debt instruments not held at fair value through profit or loss, the Clay Brick and Paver Association of N.S.W. recognises an allowance for expected credit losses using the general approach. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Clay Brick and Paver Association of N.S.W. expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognised in two stages:

- Where there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses from possible default events within the next 12-months (a 12-month ECL).
- Where there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the debt, irrespective of the timing of the default (a lifetime ECL).

The Clay Brick and Paver Association of N.S.W. considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Clay Brick and Paver Association of N.S.W. may also consider a financial asset to be in default when internal or external information indicates that the Clay Brick and Paver Association of N.S.W. is unlikely to receive the outstanding contractual amounts in full. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

1.9 Financial Liabilities

Financial liabilities are classified, at initial recognition, at amortised cost unless or at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The Clay Brick and Paver Association of N.S.W.'s financial liabilities include trade and other payables

Financial liabilities at amortised cost

After initial recognition, trade payables and interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in profit or loss.

Notes of the Financial Statements

for the year ended 30 June 2021

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

1.10 Liabilities relating to contracts with customers

Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Clay Brick and Paver Association of N.S.W. transfers the related goods or services. Contract liabilities include deferred income. Contract liabilities are recognised as revenue when the Clay Brick and Paver Association of N.S.W. performs under the contract (i.e., transfers control of the related goods or services to the customer).

Refund liabilities

A refund liability is recognised for the obligation to refund some or all of the consideration received (or receivable) from a customer. The Clay Brick and Paver Association of N.S.W.'s refund liabilities arise from customers' right of return. The liability is measured at the amount the Clay Brick and Paver Association of N.S.W. ultimately expects it will have to return to the customer. The Clay Brick and Paver Association of N.S.W. updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

1.11 Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the Statement of Financial Position but are reported in the relevant notes. They may arise from uncertainty as to the existence of a liability or asset or represent an existing liability or asset in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain, and contingent liabilities are disclosed when settlement is greater than remote.

1.12 Taxation

The Clay Brick and Paver Association of N.S.W. is exempt from income tax under section 50.1 of the Income Tax Assessment Act 1997 however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Notes of the Financial Statements

for the year ended 30 June 2021

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

1.13 Fair value measurement

The Clay Brick and Paver Association of N.S.W. measures financial instruments, such as, financial asset as at fair value through the profit and loss, financial assets at fair value through OCI, and non-financial assets such as land and buildings and investment properties, at fair value at each balance sheet date. Also, fair values of financial instruments measured at amortised cost are disclosed in Note 12.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Clay Brick and Paver Association of N.S.W. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Clay Brick and Paver Association of N.S.W. uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1—Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2—Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3—Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Clay Brick and Paver Association of N.S.W. determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Notes of the Financial Statements

for the year ended 30 June 2021

External valuers are involved for valuation of significant assets, such as land and buildings and investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. For the purpose of fair value disclosures, the Clay Brick and Paver Association N.S.W. has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

1.14 Going concern

The Clay Brick and Paver Association of N.S.W. is not reliant on the agreed financial support of another reporting unit to continue on a going concern basis.

The Clay Brick and Paver Association of N.S.W. has not agreed to provide financial support to another reporting unit to ensure they can continue on a going concern basis

Note 2 Events after the reporting period

There has not been any other matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the operations of the Clay Brick and Paver Association of N.S.W. the results of those operations, or the state of affairs of the Clay Brick and Paver Association of N.S.W. in subsequent financial periods.

Note 5B: Trade and other receivables (cont.)

The Clay Brick and Paver Association of N.S.W. applies the simplified approach to providing for expected credit losses as prescribed by AASB 9, which permits the use of lifetime expected loss provision for all trade receivables. To measure expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The loss allowance provision as at 30 June 2021 is determined below; The expected credit losses also incorporate forward looking information.

2021	Current	> 30 days past due	> 60 days past due	> 90 days past due	Total
Expected loss rate	1%	5%	10%	25%	
Gross carrying amount	-	-	-	-	-

Gross carrying amount	-	5,000	-	-	5,000
Loss allowance provision	-	(250)	-	-	(250)

Credit risk

The Clay Brick and Paver Association of N.S.W. has no significant concentration of credit risk with respect to any single counterparty or group of counterparties other than those receivables specifically provided for and mentioned within Note 5B. The main sources of credit to the Association are considered to relate to the classes of assets described as “trade and other receivables”.

The Clay Brick and Paver Association of N.S.W. always measures the loss allowance for trade receivable at an amount equal to lifetime expected credit loss. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor’s current financial position. Adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtor operates and an assessment of both the current and forecast directions of conditions at the reporting date.

There has been no change in estimation techniques or significant assumptions made during the current reporting period.

The Clay Brick and Paver Association of N.S.W. writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery (e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are two years past due, whichever occurs earlier).

Collateral

No collateral is held over trade and other receivables.

- Borrowings	6C	41,094	41,094
		44,031	43,873

Financial Risk Management Policies

The Committee of Management's overall risk management strategy seeks to assist the Association in meeting its financial targets, whilst minimising potential adverse effects on financial performance. Risk management policies are approved and reviewed by the Committee of Management on a regular basis. These include the credit risks policies and future cash flow requirements.

Notes of the Financial Statements

for the year ended 30 June 2021

Note 11 Financial Risk Management (cont.)

Specific Financial Risk Exposures and Management

The main risks the Association is exposed to through its financial statements are credit risk, liquidity risk and interest. There have been no substantive changes in the types of risks the Association is exposed to, how these risks arise, or the Committee of Managements' objectives, policies and processes for managing or measuring the risks from the previous period.

Credit Risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Association. The Association's objective in managing credit risk is to minimise the credit loss incurred, mainly on trade and other receivables. There is no significant risk exposure on other financial assets at amortised cost.

Credit risk is managed through maintenance of procedures, ensuring to the extent possible that customers and counter parties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Credit terms are usually 30 Days from date of invoice.

Risk is also minimised through investing surplus funds in financial institutions that maintain high credit rating, or in entities that the Association has assessed as being financially sound.

Credit Risk Exposures

The maximum exposure to credit risk by class of recognised financial assets at balance date is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

Trade and other receivables that are not past due or impaired are considered to be of high credit quality.

The Association does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Association.

Credit risk related to balances with banks and other financial institutions is managed by the Finance Committee in accordance with approved Committee policy. Such policy requires that surplus funds are only invested with counter parties with a Standard and Poor's (S&P) rating of at least AA-. The following table provides information regarding the credit risk relating to cash and money market securities based on S&P Counterparty Credit Ratings

for the year ended 30 June 2021

Note 11 Financial Risk Management (cont.)

Liquidity Risk

Liquidity risk arises from the possibility that the Association might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Association is not exposed to any significant liquidity risk. The Association manages its liquidity risk through the following mechanisms:

- preparing forward looking cash flow analysis in relation to its operational, investing and financing activities;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets; and
- investing only in surplus cash with major financial institutions.

The table below reflects an undiscounted contractual maturity analysis for non-derivative financial liabilities. The association does not hold any derivative financial liabilities directly.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows to settle financial liabilities is presented in the table below.

Financial liability and financial asset maturity analysis:

	Within 1 Year		1 to 5 Years		Over 5 Years		Total

Note 11 Financial Risk Management (cont.)

Market Risk

Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby future changes in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Association is also exposed to earnings volatility on floating rate instruments.

The financial instruments that expose the Association to interest rate risk are limited to cash on deposit.

The Association manages interest rate risk by ensuring deposits are held with reputable financial institutions. Association also manages interest rate risk by ensuring that, whenever possible, payables are paid within any pre-agreed credit terms.

Other market risks

The Association is not exposed to any other market risks such as price or foreign currency risk.

Sensitivity analysis

The following table illustrates sensitivities to the Association's exposures to changes in interest rates. The table indicates the impact of how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible.

These sensitivities assume that the movement in a particular variable is independent of other variables.

	Profit and loss \$	Equity \$
Year ended 30 June 2021		
+/- 1% in interest rates	+/- 418	+/- 418
Year ended 30 June 2020		
+/- 1% in interest rates	+/- 438	+/- 438

There have been no changes in any of the assumptions used to prepare the above sensitivity analysis from the prior year.

Notes of the Financial Statements

for the year ended 30 June 2021

Note 12 Fair Value

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying amounts as present in the statement of financial position.

	Carrying amount 2021 \$	Net Fair Value 2021 \$	Carrying amount 2020 \$	Net Fair Value 2020 \$
Financial Assets				
At amortised cost:				
- Cash and cash equivalents	41,798	41,798	43,847	43,847
- Trade and other receivables	-	-	4,750	4,750
	41,798	41,798	48,597	48,597
Financial Liabilities				
At amortised cost:				
- Trade and other payables	2,937	2,937	2,779	2,779
- Borrowings	41,094	41,094	41,094	41,094
	44,031	44,031	43,873	43,873

Cash and cash equivalents, trade and other payables, and borrowings are short-term instruments whose carrying amounts approximate their fair values.

Notes of the Financial Statements

for the year ended 30 June 2021

Note 13 Section 272 Fair Work (Registered Organisations) Act 2009

In accordance with the requirements of the *Fair Work (Registered Organisations) Act 2009*, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or Commissioner:

- (1) A member of a reporting unit, or the Commissioner, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.
- (2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.
- (3) A reporting unit must comply with an application made under subsection (1).

CLAY BRICK AND PAVER ASSOCIATION OF N.S.W. OFFICER DECLARATION STATEMENT

I, Avery Spackman, being the President of the Clay Brick and Paver Association of N.S.W., declare that the following activities did not occur during the reporting period ending 30 June 2021.

The reporting unit did not:

- acquire an asset or liability due to an amalgamation under Part 2 of Chapter 3 of the RO Act, a restructure of the branches of an organisation, a determination or revocation by the General Manager, Fair Work Commission
- receive capitation fees or any other revenue from another reporting unit
- receive revenue via compulsory levies
- receive donations or grants
- receive revenue from undertaking recovery of wages activity
- incur fees as consideration for employers making payroll deductions of membership subscriptions
- pay capitation fees or any other expense to another reporting unit
- pay affiliation fees to other entity
- pay compulsory levies
- pay a grant that was \$1,000 or less
- pay a grant that exceeded \$1,000
- pay a donation that was \$1,000 or less
- pay a donation that exceeded \$1,000
- pay wages and salaries to holders of office
- pay superannuation to holders of office
- pay leave and other entitlements to holders of office
- pay separation and redundancy to holders of office
- pay other employee expenses to holders of office
- pay wages and salaries to employees (other than holders of office)
- pay superannuation to employees (other than holders of office)
- pay leave and other entitlements to employees (other than holders of office)
- pay separation and redundancy to employees (other than holders of office)
- pay other employee expenses to employees (other than holders of office)
- pay to a person fees or allowances to attend conferences or meetings as a representative of the reporting unit
- incur expenses due to holding a meeting as required under the rules of the organisation
- pay legal costs relating to litigation
- pay legal costs relating to other legal matters
- have a receivable with other reporting unit(s)
- have a payable with other reporting unit(s)
- have a payable to an employer for that employer making payroll deductions of membership subscriptions
- have a payable in respect of legal costs relating to litigation
- have a payable in respect of legal costs relating to other legal matters
- have an annual leave provision in respect of holders of office
- have a long service leave provision in respect of holders of office
- have a separation and redundancy provision in respect of holders of office
- have other employee provisions in respect of holders of office
- have annual leave provision in respect of employees (other than office holders)
- have a long service leave provision in respect of employees (other than office holders)
- have a separation and redundancy provision in respect of employees (other than office holders)
- have other employee provisions in respect of employees (other than office holders)

**CLAY BRICK AND PAVER ASSOCIATION OF N.S.W.
OFFICER DECLARATION STATEMENT**

(continued)

- have a fund or account for compulsory levies, voluntary contributions or required by the rules of the organisation or branch
- transfer to or withdraw from a fund (other than the general fund), account, asset or controlled entity
- have a balance within the general fund
- provide cash flows to another reporting unit and/or controlled entity
- receive cash flows from another reporting units and/or controlled entity
- have another entity administer the financial affairs of the reporting unit
- make a payment to a former related party of the reporting unit
